

2017 Lennox Head Community Tree Planting

Friday 2 June 2017

Since 2003, GeoLINK and Ballina Shire Council have hosted the annual Lennox Head Community Tree Planting Day to coincide with World Environment Day – the biggest, most globally celebrated day for positive environmental action. This important initiative aims to protect our natural heritage and create a lasting natural legacy for future generations.

Not afraid of a challenge? The local community is warmly invited to take positive environmental action by joining us at the top of the headland to help plant some trees. Trees, mulch, water and some planting tools will be supplied by Ballina Shire Council. The Lennox business community and volunteer groups have generously donated a barbecue and refreshments.

When: Friday, 2 June 2017 from 9 am to 12 pm

Where: Top of Lennox headland (follow signs)

Bring: Sun protection, closed footwear and gardening gloves and tools (if owned)

BBQ and refreshments will be provided for volunteers to refuel

For more information or to confirm your availability please contact Maree Walo at GeoLINK on 02 6687 7666 or email info@geolink.net.au.

Background

The Ballina Environment Society started replanting the Lennox headland in 1980, with the GeoLINK-Ballina Shire Council planting partnership starting in 2003. Now in its 15th year, the Lennox Head Tree Planting Day has grown to become a major environmental event on the local calendar. Each year, the Lennox Head community rallies together at the iconic Lennox headland to restore the rainforest community that was once present on the headland pre 1800's.

As illustrated in the aerial map a large area has been planted since the event's inception, but there is still a lot more work to be done.
